SYSTEMPOOL advierte que la tela del interior de los cobertores de la SPA puede desteñir, decolorarse y/o deteriorarse ligeramente con la exposición continua y/o prolongada durante decenas de horas al contacto del vapor con el químico.
SYSTEMPOOL advise that the inner side of the SPA covers, could fade and/or get slightly damaged if it is exposed continuously to the steam with the chemical for tens of hours.
SYSTEMPOOL conseiller que la face interne des couvertures, pouvait s'estompent et/ou obtenir légèrement endommagé si elle est exposée en permanence à la vapeur avec le produit chimique pour des dizaines d'heures.
